Installing the ILP CMM Plugins with Moodle

Installation Steps

Perform the following steps to install the ILP CMM plugins with Moodle.

Step 1. Obtain the ILP CMM plugins zip file from the Moodle site. On the Moodle website (http://moodle.org), go to **Downloads** > **Plugins**. and search for the ILP CMM plugin.

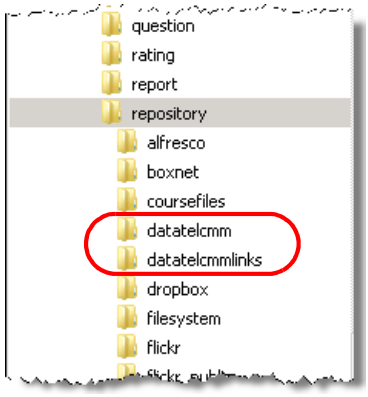
Step 2. Move the zip file to a location on your Moodle server and unzip the folders and files.

There will be two folders:

- ***datatelcmm***. Contains files for the ILP CMM Documents plugin.
- ***datatelcmmlinks***. Contains files for the ILP CMM Links plugin.

Step 3. Copy both the *datatelcmm* and *datatelcmmlinks* folders into the *repository* folder under your Moodle installation (Figure 1).

Figure 1: ILP CMM Plugin Folders Installed With Moodle



Step 4. Access your Moodle site as an administrator.

The first time that you access the Moodle site after installing the Plugin folders, you should see the Plugins Check page (see Figure 3). If you do not see that page, go to the **Settings** block, expand the **Site Administration** category and then click **Notifications** (Figure 2).
